About Kabul World Wide Road and construction Campany:

A decade back, when the fate of Afghanistan was rewritten and envisioned to reinstate prosperity and peace at every nook and corner of our beloved motherland, so as people live as the rest of world lives. To accomplish this mission, it was the need of the hour to rebuild Afghanistan and straighten the roads to success, peace and prosperity. To embark on rebuilding the homeland, one of the construction companies viz KWWRCC came into being in 2004 under the auspice of Mohammad Omarzada (CEO) and dedicated to do whatever it takes to help rebuild Afghanistan. Company was licensed with AISA under license no. D-27450 and was headquartered at Kabul and branches across the country. The company, KWWRCC has a sufficient number of professional skilled workers, including international consultants and engineers in required disciplines, and has a young, well specialized, success-oriented and far-sighted top management. That is why; KWWRCC proudly says that" Our employees are our strength". As an engineering services firm Kabul World Wide Road & Construction Company is capable of covering all types of military and civil facilities including administration, operations, and maintenance buildings, and all associated utilities, site development and infrastructure. It has financial durability and line of credit, which gives power to carry the cost of a project until its progress invoices are received, reviewed, approved and processed by its clients. Topping the list of our working principles are worker safety and respect for the environment, quality at the highest level, productivity as a must, and competitiveness are company policies of the first order. We strive to look at work not as something ordinary but as something special, going beyond the mere completion of a job and solution of identified problems to the solving of every possible problem that might crop up. Consequently, KWWRCC is a construction company which secures to get high level expertise in Construction and Materializing on the Constructional Projects about contracting and contract realizing, and Construction Planning. As an instance of this, fields of experiences of KWWRCC can be listed as follows: - General Construction - Road Construction - High-Rise Buildings - Residential Buildings - Construction of Commercial Plazas - Hospital and School Constructions - Bridges and Overpasses - Water Pipeline and Reservoirs - Renovation and Renewing Projects
