Career Level : Any
Qualification :

About DHSA-TKG:

Development and Humanitarian Services for Afghanistan (DHSA) established in 1992, the mission of DHSA is to redefine development in Afghanistan by promoting a dynamic and capable civil society as a means to foster local ownership of development, dignity and a peaceful & sustainable future for all Afghans.
Throughout the 1990's, DHSA focused primarily on drawing strength from local knowledge and traditional relationships to fill gaps, caused by a weak national government and absence of public services. During this time, DHSA focused on activities such as water sanitation and irrigation, education, food assistance to drought affected populations, and rural rehabilitation, matching local know-how with the financial and political support from international aid agencies and donors such as EC, USAID, WFP, WHO, the UN, Canada fund/Care International and Novib.
The political changes brought by the Bonn Agreement in 2001 allowed DHSA to add development of civil society in Afghanistan – through its media, education and various community development projects – to its portfolio, in addition to humanitarian assistance.
To achieve its mission, DHSA presently operates five activities:
• Humanitarian Activities
• Public Media and Communication (TKG),
• Education
• Cultural Heritage
• Environmental Protection

Job Description:

1. Broadcasting of Live programs from on air.
2. Recording news room and production colleagues' programs.
3. Audio Editing of programs.
4. Organizing & managing studio equipment and technician tools.
5. Shifting/Being on duty in Studio (Live & Production Studio).
6. Shifting/Being on duty during night.
7. Maintaining archive of programs of Radio Killid.
8. Maintenance of studio equipment.
9. Participating in various affairs according to the instruction of Radio Manager.
10. Whenever he/she received the programs, he/she should check the quality of sound based on standards.
11. Arrange the recorded programs based on a proper given broadcast schedule.
12. After the production; edit and make the programs ready for the broadcasting.
13. If there are problems in the program; he/she will struggle to solve these problems with the consultation of the relevant producer and radio manager.
14. Preparation of weekly reports based on the quality of the radio programs.
15. Participation in the producer meetings which are normally conducted bimonthly; where he/she will identify the problems of the producers and give proper suggestions for the solution.
16. Change the trails of the programs and other trails of radio after each three months with the coordination & cooperation of newsroom staff.
17. Strengthening the archive of the radio (note the demands of the listeners and convey the message to radio manager).
